Cleaning and Maintenance	Clean your basin using a mild non-abrasive cleanser. Please refrain from using scour pads on the concrete, as it can scratch your basin and breakdown the sealer. Avoid exposure to products with high levels of PH such as paint strippers, bleach, and nail polish remover. If exposure occurs, rinse immediately with water to neutralize effect, and then follow usual cleansing procedure.

Warranty Compliance Solvents or liquids to remove/clean up silicon (especially around waste area) such as Fuelite cannot be used as it will break down the concrete sealer and void warranty.
