SOLID SURFACE WALL HUNG BASINS

MINERVA / COMPLEX / CIRQUE / CIRQUE PLUS / MADE-TO-ORDER

IMPORTANT!

Please read these instructions **prior** to installation

Because the weight of a wall hung basin and the weight that comes from people leaning on the basin can crush the wall lining if a plaster board is used, we recommend wall hung basins are installed against a cement based non-compressible wall lining.

Installation Instructions

⚠ **Important!** Before installing, ensure there is sufficient timber framing in the wall to securely fasten your basin to.

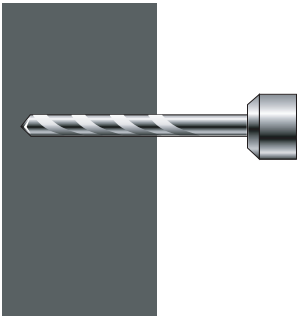

Bolt Set Supplied

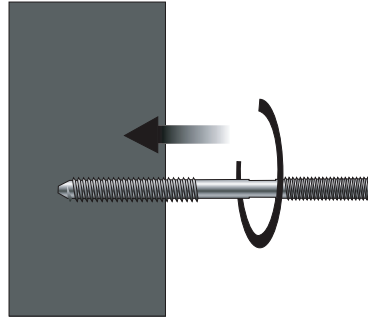

Installation Instructions

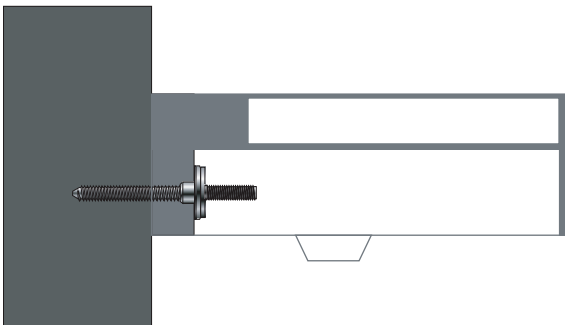

1. Drill holes in the required positions into the timber framing using a 7mm drill bit.

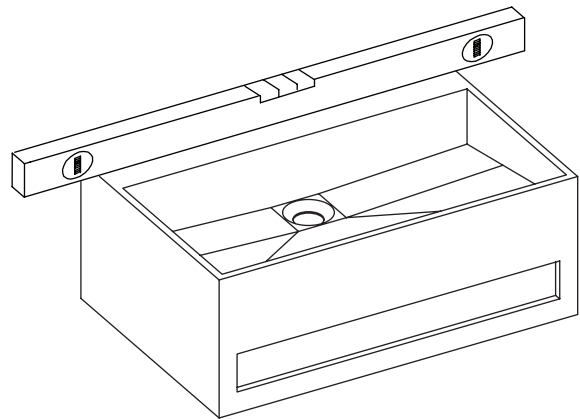

2. Screw a fixing bolt into each hole using an 8mm spanner to tighten. Tighten until the spanner contacts the wall.

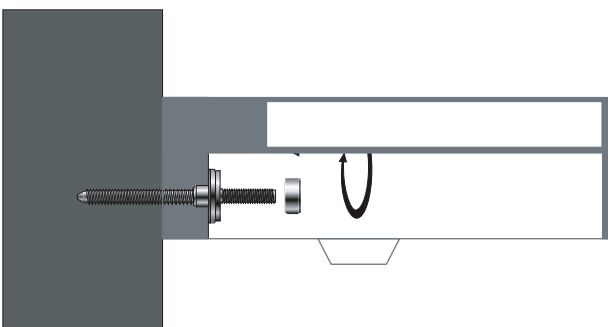

3. Place the basin/vanity top in position against the wall, locating the fixing bolts through the holes in the rear of the basin. Push the plastic washer onto each fixing bolt.

4. Before fixing the basin in place, ensure that the basin is sitting level.

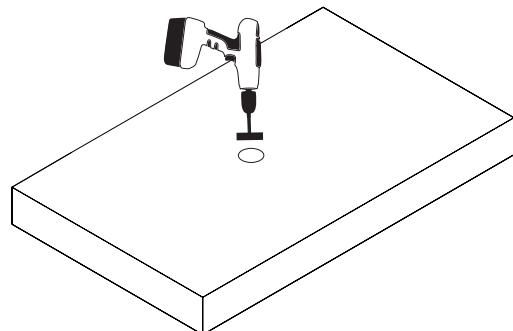

5. Screw a metal nut onto each fixing bolt to secure the basin. **Caution:** do not over tighten as this may damage the basin/top.

Tap & Waste Holes

Solid Surface tops are supplied with no tap or waste holes and basins are supplied with no tap hole however these can be drilled onsite by the installer if required with the hole saws supplied.

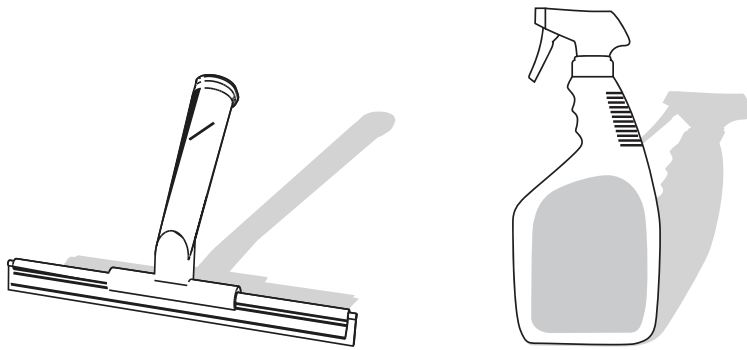

Cleaning Guide

Matt Solid surface products require minimal maintenance. For every day cleaning after each use, simply wipe with a soft wet cloth to remove any surface dirt.

For tougher marks we recommend using widely available cleaning products such as liquid jiff. Occasionally you may require a mildly abrasive product to erase scratches. We have included a pad with your product if this is required.

Never use petroleum-based products when cleaning, i.e. paint thinner or other solvents, as they may damage the solid surface.

Personal hygiene products and cosmetics will NOT damage the surface.

Wipe surface with a soft cloth after each use. Use a mild cleaning product. For more difficult stains, use a mildly abrasive cream cleanser.

Magic Sponge included

Warranty Information

Progetto Solid Surface products carry a ten (10) year warranty from date of purchase. Proof of purchase needs to be supplied by the purchaser when making a claim.

Plumline (the NZ distributor for Progetto) warrants that in the manufacture of its products only high quality workmanship and materials have been used. If within the warranty period and should there be a fault with either materials or workmanship of the product, Plumline will either (at its sole discretion) repair or replace the faulty product, but will not be responsible for removal and installation costs from after two years of purchase.

This warranty does not cover damage by improper installation, abuse, accident, excessive wear and tear, improper care and maintenance, natural causes (sunlight and water), water temperatures above 55°C, humidity and over environmental conditions.

IMPORTANT NOTE: Under no circumstances tile basins or tops 'into' the wall.

Progetto basins & tops must be fitted to finished wall coverings. The Warranty does not cover any basin or top that has been tiled 'into' a wall i.e., fitting or fixing a basin to a wall and tiling into the side and around it, and/or tiling down and/or around the basin or top.
