

### HOW TO STOP THE SLIDER FROM FALLING DOWN THE RAIL

- 1 - Slide the slider to the bottom of the rail.
- 2 - Loosen the handle (D) off the slider.
- 3 - Tighten the brass nut (C), note - this does not need to be too tight.
- 4 - Screw the handle (D) back onto the brass nut (C).

### HOW TO TIGHTEN HANDSHOWER HOLDER

- 1 - Loosen the locking grub screw (A) with an allen key.
- 2 - Tighten the centre draw bolt (B)
- 3 - Tighten the locking grub screw (A), this is to lock the draw bolt in place.
