

# CARE & MAINTENANCE GUIDE

## STANZA / ALMA / STRATA LEGNO & STANZA CASA TOPS

### IMPORTANT NOTE TO INSTALLER & END USER!

With the correct installation, cleaning and maintenance legno vanity tops are very durable and stay in great condition, the below guide must be adhered to, however.

#### Product characteristics:

Due to the natural variability of wood, the characteristics of the wood used in a particular product may differ slightly from those shown in samples or product photographs. Wood is inherently unique, with variations in knots, texture, and grain. As such, we cannot control or guarantee the exact appearance of any individual piece. There is no warranty or guarantee regarding the precise color, luster, or finish of our products. Each item is handcrafted, so no two pieces will be identical.

#### Installation

- When installing any bench mount tapware on a Legno top the tapware must be sealed to the top with the o-ring supplied with the bench mount tapware.
- The back edge and side of the vanity top must be sealed off with silicone.
- Basins mounted on the vanity top must have a bead of silicone around the edge.
- Avoid mounting any strong heat source near the vanity top.

#### Cleaning

- Clean the vanity top regularly to avoid a build up of dust and dirt which have the potential to scratch the vanity top.
- For light cleaning use a damp microfibre cloth, any spills must be cleaned up and dried as soon as possible.
- To remove dirt or marks use a microfibre cloth and mild detergent, remove the residue of the detergent off with a damp cloth and then dry off the top with a dry cloth.
- Avoid cleaning with any harsh acidic cleaners including citrus based cleaners.

#### Maintenance

- Avoid leaving any soap sitting directly on the vanity top, a soap dish must be used.
- Applying a waxed based, silicone free furniture polish periodically will result in a more water-resistant surface.

#### The below voids warranty:

- Damage caused by accident, misuse, modifications, improper handling, or abuse.
- Installation, care, maintenance, and cleaning not in accordance with suggested procedures or guidelines.
