## RECOMMENDATIONS FOR INSTALLATION

### Water Pressure

1 - 3 bar

### Water Temperature

45° - 65°C

### Stop Taps

Angle valves are recommended

### Pre-Flush

Always flush out the pipework before connecting any tapware.

### ATTENTION

Failure to do so will void the warranty.

## Cleaning

Clean with warm soapy water and a smooth cloth. Avoid abrasive sponges or detergents as these will damage the finish.

## Aerator Maintenance

Unscrew the aerator with 22mm spanner

immerse for half a day in water-vinegar solution (80-20%)

Wash, then reassemble

# INSTALLATION INSTRUCTIONS

## MINIMO BASIN MIXER | M002N

1

Screw the threaded rod into the holes at the bottom of the mixer body.

2

Screw the flexible hoses into the water inlet at the bottom of the mixer body

3

Slide the base and the o-ring over the mixer assembly then insert the whole block into the basin hole.

4

While holding the mixer in place, slide in the rubber gasket and the metal washer of the fixing kit. Secondly screw the nut on the threaded rod and fix it using a wrench.

**ATTENTION**

Two operators are required to avoid damages.

# INSTALLATION INSTRUCTIONS

## MINIMO BASIN MIXER HIGHER BODY | M004N

1

Screw the threaded rod into the holes at the bottom of the mixer body.

2

Screw the pipes and the flexible hoses into the water inlet at the bottom of the mixer body

3
